

mika tracking

Live-Tracking via GPS & mobile data

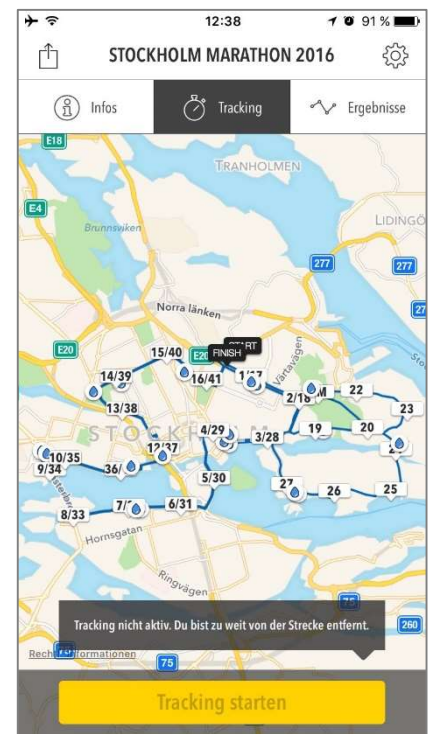

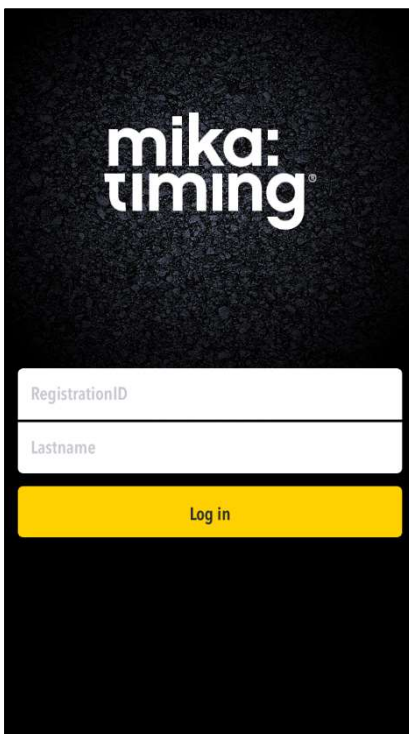

Download the mika tracking app free of charge from the iOS and Android app stores and get live tracked by your followers!

Your benefits

- Your family and friends can follow your position during the race and your estimated finish time via our live web results service.
- For yourself during the race, you receive all split times and your estimated finish time LIVE in the app.
- With using the tracking app, your position is based on GPS data and not only predicted from the last timing point.
- Timing and tracking combined in one tool.

And how it works

- Activate mobile data on your smartphone and have the battery fully charged.
- Start the app and login with your Registration-ID & Lastname.
- You receive your Registration-ID in a separate email on [weekday] before the event.
- Choose your privacy settings.
- Share the results link with your followers.
- Push the „Start Tracking“-button shortly before the race starts and stop it in the end.

More Information:

- When not using the app, when tracking is not activated or if your privacy settings are restricted, your position on the public results pages is only predicted based on split times. With using the app though, you have the chance to get tracked more precisely.
- Sharing your GPS position, your data is shown with a small 📍 on the web results map & pages.
- The best place to wear the phone is on the arm. Make sure that you do not cover the antenna.
- The service can only be provided with enabled mobile data and sufficient mobile network coverage.
- mika tracking runs on iPhones from generation 4 with iOS 7 and higher as well as on android devices with firmware from 4.x.
